

# Serving with A.I.M.

## **The Putman Family's trip to Kenya and A.I.M. journey**

God is great! We had a wonderful trip to Kenya ticking off all of the reasons for going and more. It was so good to meet Joshua and Miriam Mbithi and the children at Neema. We learned so much about trusting and serving God from them, and it really helped us to understand loving and serving God in another culture. We can only continue to commend them to you as Mission Partners and we hope to be able to visit them more regularly in the future to share with them in their ministry.

That is because, following our 4-day visit to Rift Valley Academy, we have completed our second interview with A.I.M. and been accepted into membership! There is still much to pray, do, arrange and process but we hope to be able to fly out to Kenya in July this year and begin serving at the school as part of its mission to educate and disciple the students there towards their potential in Christ, thus enabling their families to serve in mission and church planting across the African continent.

We hope to hold an information evening soon to share more about our plans and to investigate how the church and individuals can partner with us to get the gospel to unreached people groups in Africa. Please watch out for details of that event!

Please pray for:

- The peace that passes all understanding to guide our hearts and minds in Christ Jesus.
- The administrative processes that need to happen between now and July.
- Raising a team of prayer and financial supporters in 4 months.
- God's help with all the reading, training and preparation materials.
- The best succession planning for our Parish in discerning how to best continue our Children's', youth and family work.
