

Barnston Christ Church – Memorial garden and electric sockets

Date	Message
<p>06/06/2024</p> <p>To: Robert Fiddaman From: David Bayley</p>	<p>DAC Advice</p> <p>I write to advise that at it's meeting on the 24th Nay 2024 the DAC reviewed the above proposals and resolved to offer the following informal advice:-</p> <ol style="list-style-type: none"> a. It was supportive in principle and agreed with the proposed location for the memorial garden b. It needed to be provided with further photographs of the proposed area in order to understand its appearance better c. It needed to be provided with the construction details for the memorial garden (for example it noted that there is reference to photographs of the locking grid system but none could be seen in the submission) d. It was supportive of the proposal for the electrical socket <p>If you have any queries please let me know. The next DAC meeting is on 28 June with a submissions deadline of 14 June (and the following meeting is on 26 July with submissions deadline of 12 July).</p>
<p>10/06/2024</p> <p>To: David Bayley From: Robert Fiddaman</p> <p>With attachment</p>	<p>Many thanks for email requesting additional information regarding the memorial garden, unfortunately I am experiencing problems with my computer so I am forwarding the additional via my iPad hopefully you will be able to add the photograph to our application. There will be a number of emails containing the additional information.</p> <p>Many thanks, Bob Fiddaman</p> <p>Photographs showing present layout of area designated for memorial garden</p> <p>Photograph</p>
<p>10/06/2024</p> <p>To: David Bayley From: Robert Fiddaman</p> <p>With attachments</p>	<p>Photographs</p>
<p>10/06/2024</p> <p>To: David Bayley From: Robert Fiddaman</p> <p>With attachments</p>	<p>Please find attached additional photographs, it should be pointed out that the interlocking eco grid provides stability to the overlaying stone slabs limiting any movement.</p> <p>Hopefully I have provided sufficient additional information for your June Committee meeting, should you require any further information please do not hesitate to contact me.</p> <p>Regards, Bob.</p> <p>Photographs of memorial garden showing the interlocking EcoGrid</p>

	<p>which is overlaid with stone slabs, this is similar to the proposed memorial garden in our application.</p> <p>Photographs</p>
<p>10/06/2024</p> <p>To: Robert Fiddaman From: David Bayley</p>	<p>Thank you for your emails and the photographs attached. We will add them to your application and process accordingly</p>
<p>26/06/2024</p> <p>To: Robert Fiddaman From: Caroline Hilton</p>	<p>Do you have construction details for the Memorial Garden, ie relating to the interlocking grid system that you refer to? If you could send me that by Friday morning that would be very helpful for the DAC meeting in the afternoon.</p>
<p>26/06/2024</p> <p>To: Caroline Hilton From: Robert Fiddaman</p> <p>With attachment</p>	<p>Many thanks for your email, I refer to the notes for the Christ Church Barnston Memorial Garden Notes previously submitted as pertinent of supporting documentation, this basically outlines the method of construction and when read in conjunction with other documents and photographs submitted of the existing memorial garden should, help clarify your question.</p> <p>I would also add for general information that ecogrid systems have been used for 20 years or more for the basis of car parking systems, thus capable of carrying significant loading. In reality there will be light loading ie granite slabs laid on the grid system which ensures little or no disturbance of the ground layout when completed.</p> <p>Hopefully the above is of help, should you require any further clarification please do not hesitate to contact.</p> <p>Many thanks for your help.</p> <p>5. Faculty Application: Memorial Garden Notes.</p>
<p>09/07/2024</p> <p>To: Robert Fiddaman From: David Bayley</p>	<p>I write to advise that at its meeting on the 28th June 2024 the DAC considered your proposal, including information supplied since its last meeting and the committee resolved to recommend the proposal for approval.</p> <p>We will look to progress the proposal through the online faculty system as soon as possible and keep you informed accordingly.</p>
